

Audience Evaluation Form Evidence - based Medicine Debates

Topic: _____

Please rate each of the following statements on a 0-2 point scale:

0 points: inadequate
1 point: adequate
2 points: superior

	Pro Side	Con Side
	Names: _____	Names: _____
the resident convinced me he/she had found the best available evidence/articles. (such as high quality clinical trials and systematic reviews)		
the resident described how he/she searched the literature (e.g. What databases and under what MeSH headings)		
the resident demonstrated skills in critical appraisal of the literature (tells us the strengths and weaknesses of the studies they are referring to)		
the resident gave a clear presentation that got his/her point across		
the resident used at least 2 of the following terms: sensitivity, specificity, relative risk, absolute risk, NNT, randomized, double-blind, likelihood ratio, confidence interval, positive predictive value		
the resident seemed to understand the above terms!		
The resident provided a good 1 page summary sheet of his/her side of the debate for me to take home		
the resident used good audiovisuals/props		
the resident kept me awake!		
Totals: (Maximum score: 18 points)
